Message From Our President

Greetings, Members:

This is a month of celebration! We came back from the disconnect of Covid and reactivated our membership to social fun!

The Fashion Show returned in April with a BANG! A big shout out of praise to the organization team, the models, clothing vendors, caterer, decorations, door prizes, and participation of attendees to make it a successful event.

Let's do it again at our Joint Board Meeting Potluck at the Redding Christian Church on Victor Avenue. Chairs, please come and let's plot together to awaken old activities and consider fresh ways to excite our membership.

Ladies of Newcomers, I invite you to

email, text, or call me with lively, relevant ideas or suggestions on how we can stimulate group attendance and excitement. Times have changed for all of us. What do you want Redding Newcomers & Friends to look like next year? I especially invite input from those joining before 2020 to the Present.

Summer Celebration is at Win River Casino this year, with tickets still available. Pat Deem and her team have a great party planned! Let's end this season joyously with a large attendance of laughing women, optimistic about the future!

We CAN Make a Difference And You Have!

As we wind down our great Newcomers & Friends season, we wanted to remind you “We CAN make a difference” will **not** be collecting for any nonprofits in June because we are having our fun Aloha Summer Celebration at Win River on June 22nd. We want to thank you so much for your generous giving throughout the year. You have big hearts, and the unfortunate in our community have reaped much due to your giving. We are looking forward to another good season kicking off in September! Have a great summer!

7. Rename Files Sequentially on Windows or Mac

Do you have multiple files you need to rename? Thankfully, batch-renaming files in Windows and macOS isn't difficult. If you're using a Windows computer, select all the files you want to rename and right-click on the first one in the list, choose Rename from the menu, and type in the name. This will automatically change all the other files with the same root name with a suffix: (1), (2), and so on.

The process works much the same way on a Mac. Select the files you want to rename, right-click (or hold down the Control key and click) the group, and choose Rename [Number] Items from the contextual menu. Supply a keyword, and the Mac will rename the files and tack on a number in a sequence.
